

Day 2

Read Genesis 1-2

Find a way to illustrate creation as it is described in Genesis 1-2. You can pull out a device and tell the story with emojis. You can draw tiny outline illustrations/doodles in your Bible next to each part of creation as it's described. You can grab a sheet of paper and finger paints and do an abstract piece of art. Whatever way you choose to represent what you read, be sure that love is conveyed in your art, especially when people enter God's creation.

Day 3

Think about some times you have felt loved by the way someone cared for you, including the way God has cared for you.

Then personalize this prayer based on those situations, thanking God for loving you and the love of others.

~~~~~

Dear God, thank You for all the ways  
You have shown me that I matter. I  
especially felt loved when .....  
..... And thank You for  
giving me friends/family like .....  
..... who showed  
love to me when .....  
..... Thank You for showing me  
how loved I am by the way You take  
care of me and send others to take  
care of me too. Please help me to take  
care of others the way You created me  
to. In Jesus' Name, I pray, amen.
